## HISTORICAL FORT WAYNE

Fort Wayne, oldest historic spot in Indiana, thrills the history lover with the glamour of departed days. The stirring drama of the past stretches through a period of 300 years, and during that time the flags of three great nations—France, England and America—have waved over it.

Old "Kekionga" (Gateway to the West), the portage way of the Indians, joining the St. Lawrence-Great Lakes Waterway to the Mississippi River, was early chosen by the Miami Indians for their village. Then came the French, who, realizing its strategic position at the junction of the three rivers, made it an important trading post as early as 1698. The English, pushing their way westward, struggled with the French for control of this profitable trade until finally, in 1760, as a result of the French and Indian War, it passed into their hands.

The savages, resenting the loss of their chosen site, united in the mighty Pontiac conspiracy and overthrew the English. President Washington, determined to preserve this site as the northwestern outpost of the new Republic, sent three armies in as many years to force the Indians into subjection. The first two expeditions, under Generals St. Clair and Harmar, were disastrously defeated by the Indians under their great Chief Little Turtle. It remained for General Anthony Wayne to rout the savages and to build FORT WAYNE (1794).

## FORT WAYNE, INDIANA, U. S. A.

Fort Wayne, located in the northeastern part of the Hoosier State, at the historical point where the confluence of the St. Mary's and St. Joseph's Rivers forms the Maumee River, is near the geographical center of manufacturing industries in the United States, and in the very heart of one of the richest agricultural sections of the world; exceptionally convenient to the largest markets for both raw and finished products.

**POPULATION**—90.6% American born white by 1920 Census.
35% Increase every 10 years.

| | | |
|---|---|---|
| City Population | 1923 | 100,324 |
| County Population | 1920 | 114,303 |
| State Population | 1920 | 2,930,390 |

**AREA OF CITY**—16.2 square miles.

**CLIMATE, ALTITUDE AND HEALTH**—Average mean temperature 50.2 degrees. Average annual rainfall 36.56 inches. Free from swamps and low lands. 766.3 feet above sea level and 195.3 feet above Lake Erie. Health conditions excellent; sanitation laws are strict and enforced.

**VALUATION AND TAXATION**—

22,578 HOMES IN FORT WAYNE

| | |
|---|---|
| Total assessed valuation, 1923, city | $167,500,000 |
| County | 72,500,000 |
| Total | $240,000,000 |

Real estate and personal property are assessed for approximately their actual cash value.

Tax Rate for 1923:

| | |
|---|---|
| State and County | $ .73 |
| City | .655 |
| School and Township | .995 |
| Total | $2.38 |

**STREET RAILWAY**—Modern electric system which renders excellent service. Seven cent fare, with free transfer system; four tickets for $ .25; weekly pass $1.00.

**STREETS, ROADS AND DRAINAGE**—144 miles of paved streets in city. Over 800 miles of improved highways in county. 44 miles of business and residential districts are efficiently and ornamentally lighted. 150 miles of modern sewers afford excellent drainage.

**SCHOOLS AND COLLEGES**—Educational facilities are far advanced. All school buildings are modern in every respect. Twenty-five grade schools, one vocational school and two high schools comprise the public school system, total valuation $5,000,000. Manual Training and Domestic Science courses in all grade and high schools. Over 450 teachers employed in public schools.

In addition to her public schools, Fort Wayne has 23 parochial schools and one Lutheran College, Concordia, a boys' military school.

Four well-organized business colleges have a total enrollment of 800 resident pupils and 10,000 correspondent students.

CHURCHES, HOSPITALS AND CHARITABLE HOMES—Sixty-one churches representing the leading denominations. Five beautiful new church buildings now under construction.

Three modern hospitals and numerous private sanitoriums.

Many worthy charitable homes and societies. Beautiful Y. W. C. A. and Y. M. C. A. buildings with efficient and flourishing memberships.

AMUSEMENTS AND THEATRES—Two large amusement parks afford summer pleasures to thousands who are unable to go to distant resorts. Many amusement features, such as "Roller Coaster", Circle Swing, Chutes, dancing, picnic grounds, etc.

Five public, four private dance halls, roller skating rink.

One play house booking high-class drama and comedy; one Keith vaudeville, two other vaudeville houses; 15 motion picture theatres.

PARKS AND PLAYGROUNDS—Fort Wayne is noted for its beautiful and well-kept public parks, which cover 475 acres, so distributed as to afford "a park within ten minutes walk from every home in the city." Estimated value of park lands $1,000,000.

Several fine playgrounds in connection with the public schools; seven large public playgrounds, some with swimming pools.

FIRE DEPARTMENT—Completely motorized.

WATER—Municipal supply from artesian wells. 182 miles of water mains.
Rates are lowest in the state:
Minimum—417 cubic feet per month—50c per month.
Sliding Scale .90 to .50 per 1,000 cubic feet.

GAS—(Artificial) A large gas plant, equipped with two enormous containers supplies the city with artificial gas.

Rates: Minimum charge per month, per meter, $1.00.
Sliding scale, $1.25 to .75 per 1,000 cubic feet.

ELECTRICITY—One private corporation and one municipal plant, total generating capacity of 21,000 K.W.H.

Rates: Commercial and Residential—
Sliding scale, 6c to 3c per K.W.H.
Power—1 to 10 H. P.—
Sliding scale, 5c to 2c per K.W.H.
Over 10 H. P.—
Sliding scale, 3c to 2c per K.W.H.
Minimum charge 25c per H. P. per month.
Power current 220 volts A. C.

TELEPHONE SERVICE—

Twenty-five thousand telephones in Fort Wayne. New automatic system being installed, including two new buildings, twenty miles of underground and a completely rehabilitated outside plant.

RATES

CLASS OF SERVICE

| | Rate per Month |
|---|---|
| **Business Rates:** | |
| Individual line | $6.00 |
| Two-party line | 5.00 |
| Four-party line | 4.00 |
| Extension telephone | 1.00 |
| **Residence Rates:** | |
| Individual line | $2.75 |
| Two-party line | 2.25 |
| Four-party line | 1.75 |
| Extension telephone | .75 |
| **Rural Rates:** | |
| Business | $2.50 |
| Residence | 1.75 |

Schedules of rates covering Private Branch Exchanges, Inter-Communicating Systems, Hotel Private Branch Exchanges, extra listings in directory and other miscellaneous services are on file in the general offices of the Company.

BANKS—

Three National Banks, seven Trust Companies, two State Banks:

| | |
|---|---|
| Total Capital and Surplus (1923) | $ 6,166,750 |
| Total Deposits | 50,000,000 |
| Total Resources | 65,000,000 |
| Bank Clearings for 1923 | |

**TRANSPORTATION—**

**Railroad Lines:**

Six important trunk lines, all with their division or terminal point here, namely: Pennsylvania; Wabash; New York Central; Nickel Plate; Grand Rapids & Indiana; Fort Wayne, Cincinnati & Louisville (L. E. & W.). Freight service fast and unequaled. System of Interchange switching.

**Interurban Lines:**

Five electric lines radiate from Fort Wayne, which give hourly passenger service and excellent freight and baggage express service.

**Express Service:**

Five companies give Fort Wayne good express service.

Auto Trails: Eight national trials converge here.

BUILDING PERMITS—1923, 2,083 permits, 1,232 residences. Valuation $10,642,744.

PUBLIC MARKET—Finest public curb market house in Indiana.

**INDUSTRIES—**

Over 200 substantial and successful industries manufacturing a diversified line of products. The largest oil tank and pump and motor truck factories in the world, and the largest lisle hosiery mill, carwheel factory and enameled copper wire plant in the United States, are located here.

Four large railroad shops give employment to thousands of men.

Three large tank and pump factories, a large branch of the General Electric, the Knitting Mills and other large industries employ thousands of women.

Some of the products not mentioned above, but also manufactured in Fort Wayne: All kinds of electrical apparatus, incandescent lamps, plumbers' supplies, boilers, engines, compressors, valves, gas machinery, washing and ironing machines, gloves, waists, underwear, overalls, wood-working machinery, mining machinery, condensed milk machinery, soap and washing powders, pianos, boxes, corrugated paper, mattresses, tents, bicycle rims, veneer lumber, fertilizers, batteries, belting, bread, biscuits, cakes, crackers, brick, cabinets, cigars, cooperage, handles, paints, patent medicines, rubber heels, rugs, silos, soft drinks, steam shovels, textile art products, water systems, tile, etc.

**GROWTH OF MANUFACTURES:**

| | 1914 | 1919 | Percent Increase |
|---|---|---|---|
| Number of establishments | 228 | 247 | 8.3 |
| Persons engaged in industry | 13,416 | 20,462 | 52.5 |
| Capital | $31,167,000 | $55,303,000 | 77.4 |
| Value of Products | 30,205,000 | 76,713,000 | 154 |
| Payrolls | 8,935,000 | 24,685,000 | 176 |

**LABOR—**

An abundant supply of capable, intelligent labor, skilled in many lines and unhampered by unnecessary labor agitation. Fort Wayne has no "booms" nor does it feel the occasional "depressions" which are felt in cities of less diversified interests. Employees are well paid. 80% of the people own their own homes.

**WHOLESALE AND JOBBING—**

The fact that there are eighty wholesale houses covering a radial territory of over 200 miles and jobbing every product manufactured here and many products manufactured elsewhere, proves the ideal and commanding location of Fort Wayne as a wholesale and jobbing center.

**RETAIL—**

The unusually rich territory made tributary to Fort Wayne by suburban lines and railroads, and the city itself, have united to produce most extraordinary retail opportunities. The trade population is almost twice the city population.

**NEWSPAPERS—**

Fort Wayne's newspapers are typical of this live, vigorous city. They are constantly demonstrating their willingness and ability to help promote all movements tending to develop and improve their city and state.

**CHAMBER OF COMMERCE—**

Fort Wayne's commercial and civic organization ranks high with those of the most progressive cities of its size. With a membership of fifteen hundred and a spirit in keeping with the high ideals of a typical middle west city, it stands ready and glad at all times to aid local enterprises and to welcome new ones. The Chamber of Commerce is at the service and command of all who desire information concerning Fort Wayne, and the organization will cooperate in any earnest movement to improve citizenship and promote business.

TELEPHONE COMPANY CALLS

| | | |
|---|---|---|
| For NEW NUMBERS not in Directory | Call | INFORMATION |
| To report telephone OUT-OF-ORDER | Call | TROUBLE CLERK |
| To report difficulty regarding a call in progress | Call | SUPERVISOR |
| For any unusual difficulty with your service | Call | CHIEF OPERATOR |
| For other matters | No. Main 4800 | TELEPHONE COMPANY |

LOCAL SERVICE

Call by number only. Always obtain the correct telephone number from the latest directory before making a call. If the person you wish to speak to is not listed in the directory, call "Information", and obtain the number.

The operator will answer by saying, "Number, please?" Give the number plainly and deliberately, giving the prefix first and pausing between the hundreds and tens, as:

South 8760, "South, eight—seven, six—oh"
Main 4514, "Main, four—five, one—four"
Rural 1111, "Rural, one—one, one—one"
Main 1232-J, "Main, one—two, three—two, J"

Listen carefully while the operator repeats the number. If repeated correctly say "Yes"; if incorrectly, say "No", and give the call again.

If the called line is busy the operator will so advise or the "busy signal" will be placed on the line. The busy signal is a ticking sound similar to the ticking of a clock and consists of two ticks or clicks per second.

When the operator connects your line with the line called for, the called party's telephone is rung automatically once every six seconds by an automatic ringing machine and without any attention from the operator. The operator, therefore, will not notify you that she is ringing your party, but instead you will hear a buzzing sound in your receiver every time the bell of the called party's telephone is rung. This ringing tone will be heard once every six seconds while waiting for your party to answer and indicates that the automatic ringing machines are actually ringing your party.

Don't confuse the ringing tone with the busy signal. The *busy signal* is a *ticking sound* similar to the ticking of a clock, consisting of two ticks per second. The *ringing signal* is a *buzzing tone* occurring once every six seconds.

To recall the operator to make a second connection, move the receiver hook slowly down and up several times.

Do not hang up the receiver until through with a connection. To do so gives the operator the disconnect signal.

Always keep the receiver on the book when the telephone is not in use; otherwise your line will be out of order.

ANSWER YOUR CALLS PROMPTLY—In answering a call, say for example, "Mr. Smith speaking," or "Jones & Co., Smith speaking." This identifies you and saves time. Never say "Hello". It means nothing, says nothing and gets nothing except "Hello" in return, and wastes time.

TO CALL A SUBSCRIBER ON YOUR OWN LINE—Say to the operator "Ring 'R' (or whatever the letter suffix may be) on this line." It will be necessary, and the operator is instructed to request subscribers to hang up receiver while the call for the other party is being made.

PARTY LINE SUBSCRIBERS—Must necessarily be served on the same circuit with other subscribers of the same class of service located near them, and must make way for such accommodations of others as is usual in public service of any kind where two or more persons are concerned.

Subscribers must not listen to conversations of others on their own or other party lines nor interfere or annoy other parties. If, when making a call, conversation is heard the receiver should be hung up at once.

Party line subscribers should show the same courtesy to other subscribers on the line as they themselves would like to receive. Complaints of non-observance of party line rules are often mutual, and those who themselves violate these rules in any manner are not in a position to complain of others.

NEW RURAL AND SUBURBAN NUMBERING SYSTEM

With this issue of the directory all Rural and Suburban numbers have been changed and a simplified numbering system adopted. The new numbering system is as follows:

All code rings are made up of long rings or long and short rings.
When both long and short rings are used the long rings all come first.
The last two figures of a number indicate the ring.
The figures before the last two figures indicate the line number, thus:

Rural 1221, is line 12, ring 2 long and 1 short
Suburban 6513, is line 65, ring 1 long and 3 short
Suburban 7140, is line 71, ring 4 long and 0 short
Rural 611, is line 6, ring 1 long and 1 short
Rural 2732, is line 27, ring 3 long and 2 short
Rural 111, is line 1, ring 1 long and 1 short

When calling numbers pronounce each figure separately, as,
Rural 1221, "Rural, one—two, two—one"
Suburban 6540, "Suburban, six—five, four—oh"

Call for RURAL or SUBURBAN, according to the prefix of the number desired. When the Rural or Suburban Operator answers give you number in the usual way.

INSTRUCTIONS FOR USING RURAL TELEPHONES—Remove receiver and listen to see if line is busy. If busy, replace receiver and wait a reasonable length of time before trying again.

To call the operator: PRESS PUSH BUTTON ON LEFT SIDE OF TELEPHONE and ring by turning crank three or four times. When the operator answers, give the number in the usual way.

After completing a conversation, give the operator the disconnect signal by ringing one short ring WITHOUT PUSHING THE CALLING BUTTON.

To recall the operator on a connection give the usual ring for the operator WITHOUT PUSHING THE CALLING BUTTON.

Always remember to "ring off" when through talking in order that the operator may get the proper disconnect signal; otherwise the regular ring for the operator will not be received when the calling button is used.

To call a party on your own line, ring the code ring for the party wanted WITHOUT using the calling button.

Do not take down the receiver when the bell is ringing, as it prevents giving the proper ring.

# RULES AND REGULATIONS

APPLICATIONS FOR SERVICE

The initial application for telephone service must be made on the company's standard application form, and signed by the applicant or his duly authorized agent, to whom service is to be billed. Application for additional service may be made either orally or in writing, and is considered as forming a part of the initial application. The company reserves the right to refuse service to any applicant that is found to be indebted to the company for service previously rendered.

USE OF SERVICE

The right of the subscriber is to use the equipment and service furnished under such rules as the company may, from time to time, prescribe, for the purpose of personal communication. The use of service is restricted to the subscriber and his family, or his employes upon the subscriber's business.

VERBAL MESSAGES

The company does not undertake to transmit or deliver verbal or written messages and any person or employe who assists a subscriber in a communication, does so as the individual representative of the subscriber, for which service the company assumes no responsibility.

COMPETITION

The instruments in connection with the service furnished shall not be used for performing any service in competition with the company in its present or future business, and they shall not be used for receiving or transmitting or delivering any message or communication for which any toll or consideration has been or is to be paid to any party other than the Telephone Company, without the written consent of said company.

ERRORS IN TRANSMITTING

In view of the liability to errors in transmitting oral messages by telephone, and the responsibility of fixing the cause thereof, the Telephone Company does not assume liability for errors from disconnection or mistakes upon any by any telephone lines.

TELEPHONE NUMBERS

The subscriber has no property right in the telephone number, and the company reserves the right to change the call number or the central office designation associated with each number, whenever it is deemed desirable in the conduct of its business.

LOCAL MESSAGES

A "Local Message" is a communication limited to five (5) minutes' duration between stations bearing the designation of the Central Office districts within the same local service area.

OWNERSHIP OF EQUIPMENT

Instruments and lines on subscriber's premises furnished by the company shall be and remain the property of the company.

MAINTENANCE

All ordinary expense of maintenance and repair, unless otherwise specified in the company's schedules, is to be borne by the company. If any instrument or piece of apparatus is destroyed or injured otherwise than by unavoidable accident, the subscriber is to pay the actual cost of replacing or restoring the same to its original condition.

MOVING EQUIPMENT

The subscriber shall not disconnect or remove, or permit others to disconnect or remove from the premises, any equipment and lines installed by the company. Subject to the rates and charges applicable, the company will move, upon request of the subscriber, its equipment and lines to any accessible point served by the exchange with which it is connected.

NOTICE OF CHANGING LOCATION

Ten days' notice for changing location of telephones should be given. Subscribers are requested to report fully by letter any change in firm name or business, for correction in the following issue of Directory.

ENTERING SUBSCRIBER'S PREMISES

The company's representatives shall at all reasonable times have the right to enter the premises of the subscriber for the purpose of making collections or to inspect and repair the instruments and lines and upon termination of the service, for the purpose of removing such instruments and lines.

RIGHT-OF-WAY

The company shall not be required to furnish nor be held liable for failure to furnish service where for any reason it has been unable to secure or continue in use its private rights-of-way over a direct route then deemed expedient by the company.

INTERRUPTION OF SERVICE

If the service is interrupted otherwise than by negligence or wilful act of the subscriber, the only liability of the company shall be to abate charges during the period such interruption continues, after twenty-four (24) hours' written notice thereof to the company.

EXCESSIVE USE OF PARTY LINES

In consideration of the rate at which party line service is furnished, the company reserves the right to discontinue service, and remove its instruments and lines upon ten (10) days' written notice, whenever the duration or number of messages from a party line subscriber's station prevents an equitable proportionate use of other subscribers' stations associated on the same line.

CHOICE OF EQUIPMENT

The equipment used by the company as a means of furnishing exchange service to its subscribers is restricted to standard types and sizes, designed to render efficient service. Except where choice between wall or desk types of telephone set is offered, the company reserves the right to determine the size and type of equipment which shall be furnished in each application for service.

### UNAUTHORIZED ATTACHMENTS

Subscribers shall not use or permit to be used any electrical or mechanical attachment or apparatus in connection with the equipment and lines furnished by the company unless authorized in writing by said company, or permit the attachment of advertising devices.

### P. B. X. OPERATION

In the case of private branch exchange installations the subscriber shall furnish without charge to the Telephone Company, office room, light and heat and the necessary employes for switching and the performance of operating service for said private branch exchange.

### OBJECTIONABLE LANGUAGE

The subscriber shall not use or permit to be used profane, obscene or abusive language, or personate any other individual with fraudulent intent over the wires connected with his instrument, or use the same for any unlawful purpose.

### DIRECTORY ERRORS

No liability whatsoever shall attach to or be assumed by the company for any errors or omissions in the compiling, printing or distributing of its directories.

### PREMISES

The term "Premises" is defined as the building or portion of a building owned or occupied by the subscriber in the conduct of his business, or as a residence.

### PARALLELING SERVICE

Where both measured and unlimited service is offered, a subscriber will be furnished either, but not both classes of service on the same premises; in other words, unlimited service will not be furnished in connection with measured service nor will measured service be furnished in connection with unlimited service. Coin collector service is considered as measured service.

### RESPONSIBILITY FOR MESSAGES

Subscribers are responsible for all charges for messages originating from or reversed to their telephones.

### BILLING AND COLLECTING

All rentals are due and payable monthly in advance at the Commercial Office of the company and, unless otherwise specified in the company's schedules, subscribers will be allowed the first fifteen (15) days of the month in which payment is due, in which to make advance payment.

Toll and Long Distance charges are due and payable monthly, or on presentation of bill therefor, at the Commercial Office of the company. A Hotel Private Exchange subscriber shall collect for all toll business, keep accurate record of such business, and make monthly remittance of all moneys so received, to and as directed by the Telephone Company.

### NON-PAYMENT

Upon non-payment of any sum whenever the same is past due, the company reserves the right temporarily to discontinue service, but such action shall not affect the subscriber's liability for the payment of all charges accruing for service. If the account remains unpaid five (5) days after such discontinuance the company may disconnect and remove the lines and instruments.

### TERMINATION OF SERVICE

For any use of the equipment or service, improper or contrary to the company's rules and regulations, the company reserves the right to terminate the service immediately, unless otherwise provided herein, upon written notice mailed to or left at the subscriber's premises.

LIMIT TO USE OF PARTY LINES—Continuous use of a party line by any station on the line must be limited to five minutes, whether the party using the station made the call or was called.

# LONG DISTANCE SERVICE

If you are not thoroughly familiar with the classification of long distance service and charges, read carefully the following explanation of the classifications and rates for toll service, as authorized by the Indiana Public Service Commission, in order that you may intelligently select the class of service best adapted to your needs and make the most economical use of the toll service facilities provided.

### CLASSIFICATION OF TOLL CALLS

There are two general classes of long distance calls, known as "Station-to-Station" and "Person-to-Person" calls.

### STATION-TO-STATION CALLS

A Station-to-Station call is one in which the person calling does not specify a particular person or department to be reached at the station called, but gives only the number of the telephone desired or the name or address under which the telephone is listed.

Charges for Station-to-Station calls will not be reversed; neither will any appointments be made on Station-to-Station calls, nor will a messenger be sent. All of these require the performance of a greater amount of work by the operator handling the call and a longer use of the circuits and equipment, and, therefore, must be charged for at the higher Person-to-Person rates. The cheaper evening and night rates apply only to Station-to-Station calls. The evening rates, which are in effect between 8:30 P. M. and midnight, are approximately one-half of the day rates, while the night rates, which are in effect from midnight to 4:30 A. M., are but one-fourth of the day rates, providing no evening or night rate is to be less than 25c. Remember that evening and night rates do not apply to Person-to-Person calls.

### PERSON-TO-PERSON CALLS

A Person-to-Person call is one in which the person calling specifies a particular person or department to be reached at the called telephone. As it requires more effort on the part of the operator to establish such a connection and longer use of circuits and equipment, Person-to-Person calls are charged for at a rate approximately 50 per cent higher than Station-to-Station rates. The charges on a Person-to-Person call may be reversed, that is, collected from the called station. Appointments may be made to talk at

some future time and a messenger may be sent for the called party if desired. Appointment and messenger calls are both subject to a rate 20 per cent higher than the regular Person-to-Person call, on account of the additional labor involved and the service rendered. The actual cost of the messenger is also added in case a messenger is sent. Person-to-Person calls, in some instances, are subject to what is termed report charges.

### REPORT CHARGES

Orders for Person-to-Person service are accepted only under condition that a limited charge, known as a "Report Charge," will be made when under certain conditions it is impossible to establish communication between particular persons. The Report Charge is approximately one-fourth of the initial Station-to-Station rate, with a minimum charge of ten cents and a maximum of two dollars. Report charges will be made when the person called or the one calling refuses to talk; when the called party is "out," "absent from the city," or when, on account of any circumstances not the fault of the Telephone Company, it is impossible to establish the connection after the called telephone is reached, providing that no charge shall be made in such cases where the delay, if any, is greater than one hour. Should the call be completed later in the same day, the Report Charge will be canceled.

### CLASSIFICATION OUTLINE

Below is an outline of the classification of calls and rate showing the relationship between the different classes and subclasses of calls and between initial period and overtime rates. The Station-to-Station day rate is the basic rate upon which all other charges are computed.

Assuming that the Station-to-Station initial period rate between two certain points is one dollar, the following comparative rates for the various classes of service would apply:

| | |
|---|---|
| Station-to-Station rate | $1.00 |
| Completed Person-to-Person rate | 1.50 |
| Completed Appointment rate | 1.80 |
| Completed Messenger Call rate | 1.80 |
| (Plus an additional charge for messenger service) | |
| Report charge | .25 |
| Evening Call rate | .50 |
| Night Call rate | .25 |

### OUTLINE OF CHARGES ON CALLS BETWEEN TWO CERTAIN POINTS FOR DIFFERENT CLASSES OF SERVICE

| | Sub-Classification | Initial Period Rate | Overtime Rate (Per Min.) |
|---|---|---|---|
| Station to Station | Night 12 M.-4:30 A. M. | $ .25 (5 Mins.) | $ .05 |
| | Evening 8:30 P. M.-12 M. | $ .50 (3 Mins.) | $ .15 |
| | Day (Basic Rate) 4:30 A. M.-8:30 P. M. | $1.00 | $ .30 |
| | | | Report Charge |
| Person to Person | Sent Paid and Collect | $1.50 | $ .25 |
| | Appointment | $1.80 | $ .25 |
| | Messenger | $1.80 | $ .25 |
| | | (Plus Messenger Fee | (Plus Messenger Fee) |

### HOW TO MAKE A LONG DISTANCE CALL

If you are not already familiar with the classification of long distance rates and service as prescribed by the Public Service Commission of Indiana, carefully read the foregoing instructions before attempting to place your call.

Be careful to make it plain to the operator the class of call you desire to place. (Station-to-Station, Person-to-Person, Appointment or Messenger) in order that you will not be required to pay for a higher class of call than is necessary.

### TO MAKE A STATION-TO-STATION CALL

Call the operator in the usual way and ask for Long Distance. When the long distance operator answers, give her your name and the number of the telephone from which you are talking; tell her you want to make a Station-to-Station call and give the name of city or town and state, and the number or directory listing of the telephone you want to talk to.

### TO MAKE A PERSON-TO-PERSON CALL

Call the operator in the usual way and ask for Long Distance. Give the long distance operator your name and the number of the telephone from which you are talking; tell her you want to make a Person-to-Person call; give her the name of the person or department you want to talk to, together with the name of the city or town and state, the telephone number, firm name and street address where the desired party may be found and any other information that may be of assistance in establishing communication. Be sure that you give the exact name of the person you want to talk to.

### TO MAKE AN APPOINTMENT CALL

Follow the instructions for making a Person-to-Person call with these exceptions: Tell the operator you want to make an appointment call and give the exact time that you desire to talk.

### TO MAKE A MESSENGER CALL

Proceed as with a Person-to-Person call with the following exceptions: Tell the operator you want to make a Messenger call. Be sure that you give the exact name of the person you want to talk to and give explicit directions for finding the party, such as street address, apartment, department, etc.

# LONG DISTANCE RATES

## For Indiana Points

### EFFECTIVE SEPTEMBER 1, 1923

The following Table shows the Old Station-to-Station Rates and the New Station-to-Station with Corresponding New Person-to-Person Rates, Appointment and Messenger and Report Charges.

| Old Rate | Station-to-Station Day Rate | | Corresponding Person-to-Person | | Corresponding Apmnt. and Mesngr. | | Corresponding New Report Charge |

# A Quarter of a Million Wrong Numbers Per Year

# PREVENTED!

**The new numbering system placed in effect with the issuance of our February, 1923, directory has resulted in a reduction in wrong numbers called by subscribers of 700 PER DAY, or 255,500 PER YEAR.**

# WHY?

**Changing all numbers necessitated everyone to use the directory. Also, the new numbering system is a little more complicated than the old and therefore subscribers do not depend so much on memory.**

## Consult Your Directory First!!

**Don't trust your memory on telephone numbers.**
**It takes ten or twelve seconds, at most, to consult the directory—ten or twelve seconds spent as *insurance against delay and inconvenience both to you and the one called in error.***

**The prime requirements of effective telephone service are that the correct number be given—that the directory be consulted before calling, always.**

## Architects, Builders and Building Owners

# BEFORE BUILDING

### Call a Telephone Engineer and save costly, disagreeable alterations

The extensive use of telephone equipment in hotels, apartment houses, office buildings, large residences, etc., makes it essential that in such buildings adequate provision be made to carry the large number of wires necessary for furnishing telephone service to the future occupants of these buildings.

When it is realized that in some of these buildings there are as many as 500 telephones in service, besides several small switchboards and that it is necessary to carry from 2 to 3 wires from each telephone and at least 1 cable from each switchboard to some central point in the building, the importance of making adequate provision for telephone wiring is apparent.

If some arrangement is not included in the original building plans, it may be necessary for the building owners to make extensive, costly and unsightly alterations after completion of the building, in order to conceal the wires running through the halls, rooms or corridors, for furnishing telephone service.

The Engineers of this company will be pleased, at any time, to give architects, owners or builders the benefit of their experience in such matters without charge and assist them in planning the most economical and best system for telephone service wiring in each individual case. A telephone call or post card to our office is all that is required.

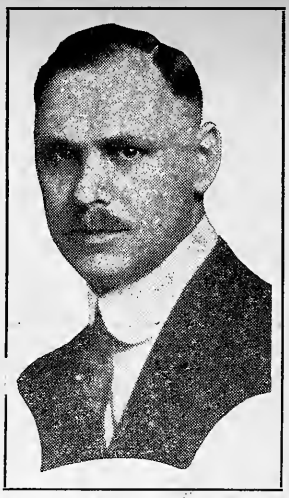
## EDUCATIONAL STANDARD

Ross College Graduate, 3-year course in Chiropractic. Palmer School Graduate in Chiropractic and course in X-Ray Spinography. National College Post Graduate in Chiropractic and X-Ray Spinography.

Also course in dissection of human body.

Cook County Hospital, Chicago, special course in Pathological Surgical Diagnosis in X-Ray and Floroscopy and General Clinical Admittance.



## NEUROCALOMETER SERVICE

MAJORS AND MINORS

I have recently passed a rigid instruction test in the technical use of the NEUROCALOMETER.

With this qualification as a technician in the use of this wonderful instrument you are now assured a service of unusual merit in this office.

The NEUROCALOMETER establishes the EXACT place in the spine where there is a pressure. By checking and re-checking we can now determine with a greater certainty, just where to adjust. Naturally quite remarkable results follow adjustments made after NEUROCALOMETER readings.

# CARL J. GOEBEL

**D. C., M. C., PH. C.**

Office Main 4628
Res. South 8498
Fort Wayne's Pioneer Neurocalometer Service

**107 W. Berry St.**
Lady Assistant at Office

ESTABLISHED 1915
Fort Wayne's Pioneer X-Ray Spinographer

### U. S. Army Medical Corps, Service in France

I practice nothing but Chiropractic and the very latest methods in our science and in X-Ray Spinography in Fort Wayne. My method of analysis combined with the Spinograph X-Ray readings of Vertebral Subluxation, is accurate--absolutely no guess work. Certain conditions occasionally prevail and baffle even the most skilled Chiropractic palpator, and it is in these cases that the employment of the X-Ray as a verifier of the Chiropractor's finding is utilized.

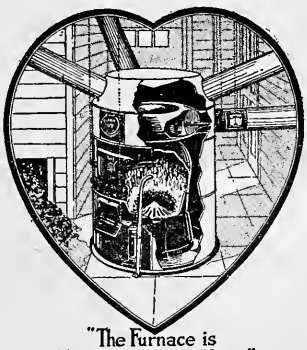
**FURNACES—** Continued.

# *Holland Furnaces*

## *Make Warm Friends*



"The Furnace is
The Heart of the Home"

Holland Furnaces burn less fuel than any other furnace.

They provide clean heat. They are installed by skilled engineers and they are backed by the "Holland Guarantee Service Bond."

Before you order your furnace see a Holland Furnace man. Compare the Holland with any other you may care to consider.

Our Service Department answers calls on all makes of furnaces.

# THE OVERHEAD DOOR

**FOR GARAGES and Other Buildings**

**Opens Overhead Out of the Way**

When open, it is completely overhead and out of the way, resting in a horizontal position on the track above.

When closed, the door rests flush on the floor, and fits perfectly at sides, top and bottom, thus giving you a door that will withstand all exposure to weather, and one that operates successfully under any and all conditions.

# The Right of Way

There's no office boy to stop you when you solicit orders by telephone. The buyer is never too busy to talk; never has a previous appointment; never fails to give you his attention.

You have the *right of way* to his desk, his ear and his undivided interest. :: :: :: :: ::

Why stick to old-fashioned methods when the telephone on your desk is a Long Distance Station and the operator opens all the doors in all towns to your selling talk? :: ::

# ROOFING

**All kinds of Roofing and Genasco Latite Asphalt Shingles. The only shingle that does not curl, warp or buckle. Let us show you how they look on the buildings we have covered.**

We have been established in Fort Wayne since 1911 and have put on over 10,000 Roofs. Does this not suggest to you that YOU will get the same in Workmanship and Material that has made this Volume of Business possible, and has made us the Leading Roofers in Indiana?

# To Our Subscribers

REALIZING the splendid future in store for Fort Wayne as indicated by the past and present rapid growth of our city and believing fully in the stability of that growth, we have decided, after careful deliberation, to provide Fort Wayne with a telephone system of the very latest automatic type which will permit us to give service that will be second to none. In June, 1922, we began the rebuilding of our outside plant by placing our heavy lines underground and cabling our open wire lines, thus greatly beautifying the city and eliminating hazardous wire conditions. In March, 1924, we began the construction of our two new central office buildings to replace our present quarters. The new buildings will be completed this fall and the installation of the new automatic switching equipment will then immediately begin. All telephones now in service will be replaced with telephones equipped with dials for automatic operation and the cut-over to the new system will be made in the early summer of 1925. Calls from all local lines, including rural, suburban and pay stations, will be switched automatically without the aid of operators after the new system is installed. The total additional cost of our new system when completed will be more than $3,500,000.00, more than half of which has already been spent.

Work on the new buildings and the installation of the new equipment will be rushed to completion at as early a date as possible. In the meantime we realize the limitations of our present facilities and ask your kind indulgence of minor service shortcomings until such time as our new plant is completed and better service facilities are available. We are exerting every effort to give the best possible service with our present facilities and shall continue to do so until the cut-over to the new system is made.

THE HOME TELEPHONE & TELEGRAPH COMPANY
FRANK E. BOHN, Vice-President and General Manager.

# CORDUROY CORDS

## *Add thousands of miles to the life of your tires*

CORDUROY CORDS are built as good as the best, PLUS the important feature of SIDEWALL PROTECTION. This added and protected feature strengthens the sidewalls of the tire at a point where all other tires are weakest, and acts as a bumper against curbs, car tracks, ruts, sharp stones, etc.

The next time you buy a tire, come in and let us explain SIDEWALL PROTECTION.
